## **Base Runner Assembly Instructions**

### **Tools Needed for Assembly:**

- 7/16" wrench (two)

### **Parts Shipped with Unit:**

- Head
- Fiberglass telescoping handle with grip
- Threaded handle adapter w/set screw
- Gusset brace (set of 2)
- Bolt bag for braces

### **Gusset Brace Instructions:**

1. Slide slotted threaded handle adapter over the center hole on the rake head.
2. Position one gusset on bottom of adapter, and the other gusset on top of the adapter.
3. Insert the two longest bolts through the top gusset, the adapter, and the bottom gusset, as shown. Insert the two shortest bolts through the two remaining holes.
4. Using wrenches, tighten all loc nuts.
5. Thread handle into handle adapter making sure the thumbscrew is backed out of the adapter threads.
6. Tighten handle until beveled tip is snug against beveled surface of adapter.
7. Tighten thumbscrew in adapter.

### **The Base Runner telescoping handle has a double lock system:**

1. Thread lock – black 2-piece plastic assembly on handle
2. Snap lock – internal mechanism that is engaged by turning the smaller diameter handle to the left until it snaps into the locking position.

### **Extending the Handle:**

1. Making sure both locks are disengaged, pull out the lower part of the handle to desired length.
2. Engage snap lock according to above instructions.
3. Tighten thread lock.

### **To Collapse the Handle:**

1. Loosen thread lock.
2. Disengage snap lock by turning the smaller diameter handle to the right until it releases.
3. Slide smaller handle into larger handle.

#### **FULL WARRANTY**

*All Seymour Midwest products carry a full warranty against manufacturer defects in quality and workmanship. Products which have been abused or worn out from normal use are excluded from this warranty. We reserve the right to replace or issue credit on an individual basis.*
